

EPA Wood Stove

CLYDE 1.6

SS Clyde

Named for the Celtic word meaning “strong”, the SS Clyde first sailed across the Atlantic in the year 1900 and began the NotreDame Bay run. She stopped in such places as Fortune Harbour, Moreton’s Harbour, Leading Tickles, Kite Cove, Beaver Cove and Twillingate.

Named after this proud Alphabet Fleet ship, Steers presents the Clyde 1.6 EPA-approved wood stove. Using improved air intake, our Legacy Collection of wood stoves allow for more complete combustion, which is better for the environment.

Features of the Clyde 1.6

- ◆ Heats up to 1,600 square feet
- ◆ Average efficiency rating of 70%
- ◆ Average emissions of 5.7g/h
- ◆ Easy-to-access ash pan
- ◆ Maximum log length of 20”

Technical Data

CLYDE 1.6

Combustible type	Wood		
Recommended surface (ft)	800 ft to 1 600 ft		
EPA test fuel	40 500 BTU/h (11.9 kWh)		
Seasoned cord wood	45 000 BTU/h (13.2 kWh)		
Color	Metallic black		
Exterior appliance dimensions:	Width	25 1/4"	
	Depth	23 1/2"	
	Height	29 1/2"	
Flue pipe diameter	6"		
Chimney type	2 100 F/ 650 C		
Minimum chimney height	12'		
Firebox dimensions	Width	21"	
	Depth	13 1/2"	
	Volume	1.64 ft	
Maximum log length	Width	20"	
Door opening dimensions	Height	17 1/2"	
		9"	
Door type	Glass/Cast iron frame		
Pyroceramic glass surface	Width	15 3/4"	
	Height	7 1/2"	
Weight (lbs/kg)	328 lbs (149 kg)		
Limited Warranty	Lifetime		
Clearances to combustible materials	Stove Pipe	Single	Double
	Back	20"	20"
	Sides	19"	19"
	Corners	14"	14"

Included:

- ◆ 130 CFM blower with variable speed
